

New IGH Utilities Rates for 2022

The Inver Grove Heights City Council recently approved **changes to water, sewer and stormwater rates in IGH**, which will mean modest increases to **utility bills in 2022.**

To understand the change in rates and see an example of what to expect on your utility bill, visit our website:

www.ighmn.gov/waterrates2022

Need Assistance in Paying Your Bill?

There are resources available to residents experiencing financial hardship and need assistance with their utility bills.

For more details, visit www.ighmn.gov/billpay.

Maintaining our water system now saves greater expense down the road, and helps ensure that we continue to offer a **safe water supply & reliable infrastructure**

for residents and businesses as the city grows.

Water & Sewer Rates

Water and sewer utility fees charged by the city not only cover the costs of the water actually used by your household. These fees also pay for the costs of operating our water treatment facilities and systems, including staff time and training, and repair and maintenance expenses.

- Water utility bills will reflect a 2% increase, and sanitary sewer bills a 5% increase.
- Properties in the northwest area of IGH will have a \$2 per 1000 gallons surcharge added to the sewer portion of their bill.
- Increases will be reflected in the first billing period that contains only 2022 water usage.

Stormwater Rates

When we use funds to better manage water quality and better defend this area from the effects of large storms, **we protect our environment, water supply, land and property.**

The first step in better preparing for increasing stormwater management costs is a 25% increase to the stormwater utility fee for most IGH properties in 2022. While this might sound steep, it equals, on average, approx. \$6 annually in additional fees.

Currently, some households pay more than others in stormwater management fees. In an effort to promote fairness and equity between neighborhoods, households that currently pay more will see only a 5% increase to their fee.

This fee will vary based on property type, for more info, visit www.ighmn.gov/waterrates2022.
