

Family Fun Fire Safety Activity

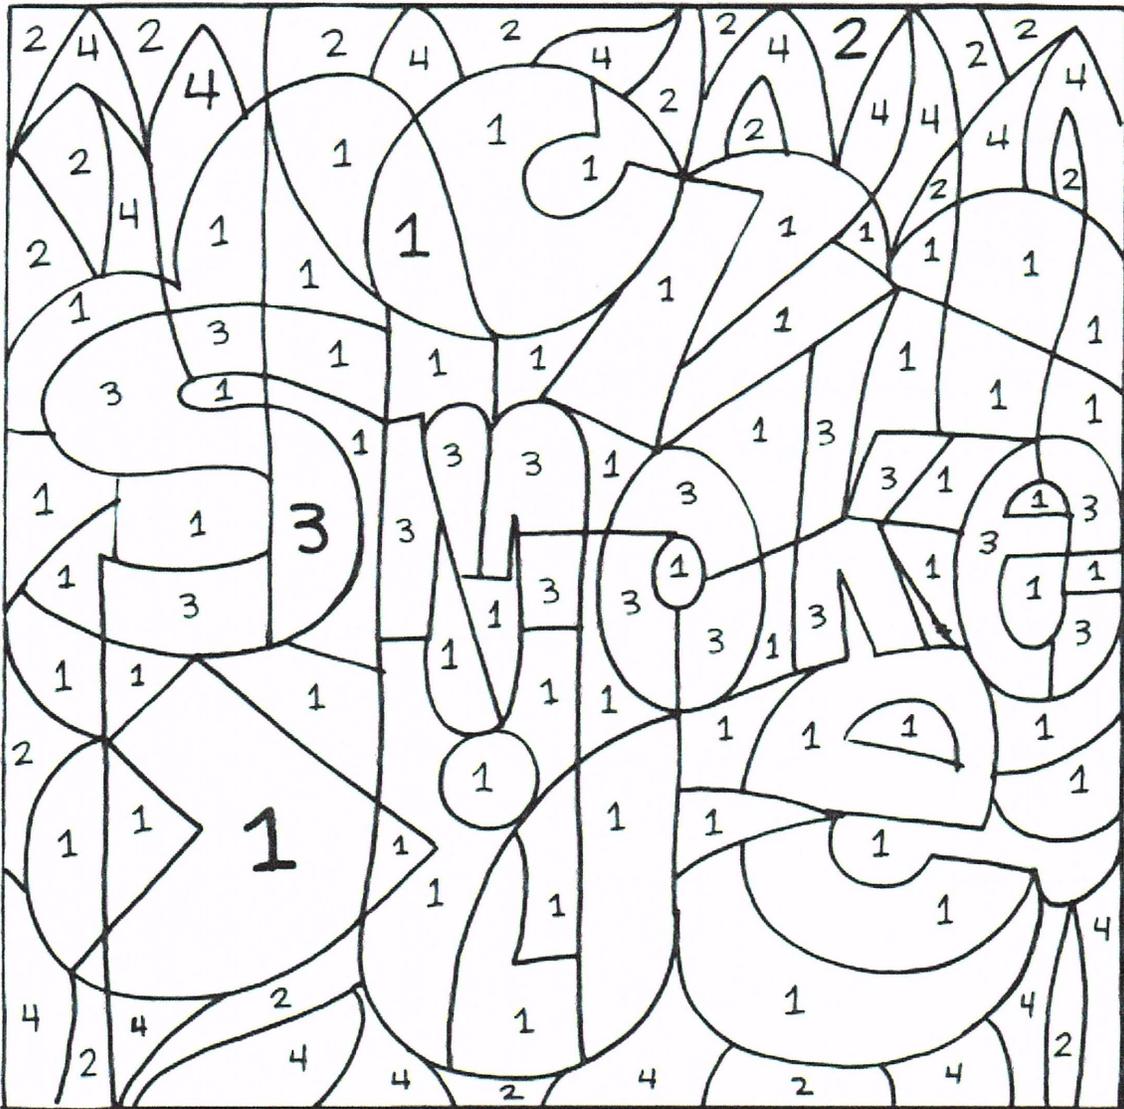

BEWARE OF DANGER

Something is very dangerous for all of us to be aware of when it comes to fire. We experience this if we over cook food, enjoy a outside bonfire, and unfortunately in a house fire. If you see this, stay low to the ground and crawl to an exit!

Color the spaces according to the numbers given to find the hidden danger.

1= gray 2= yellow 3= black 4= orange

Important! Always have working smoke detectors in every room of your home. Check frequently, and change the batteries every six months.
