

# SALT SMART PLEDGE

**THIS WINTER, HELP US PROTECT OUR WATER & SALT SMART.**

Excessive use of de-icer and salt on roadways, sidewalks and driveways can pollute our soil and water resources.

Even small quantities can negatively impact drinking water, plants, fish and wildlife.

**HERE'S HOW YOU CAN TAKE PART:**

## 1. SHOVEL

Clear walkways before snow turns to ice. Apply salt only if needed.

## 2. SCATTER

Use salt only where critical. Aim for three (3) inches of space between salt granules.

## 3. SWITCH

Salt doesn't melt ice in temperatures below 15 degrees Fahrenheit. Use sand for traction when it is too cold or a different de-icer.

## 4. SWEEP

Clean up leftover and excess salt, sand and de-icer to save and reuse, as needed.

Come to IGH City Hall and grab a **free salt cup** this winter\*!  
Use it as a guide on when to salt and how much to use.

*\*While supplies last.*
